

Lobby list National Government and local Newport Councillors

If you are sending your message via email you may want to ensure that each person thinks they are getting an individual message either paste them individually in the **To** box and send 75 separate emails or select one person for the **To** box eg. Harry Jones and paste all the rest in to the **BCC** box. The full list will then not be seen by anyone but you and each recipient listed thinks they are getting an individual mail copy of what has gone to Harry Jones. Remember though your internet provider may have a limit on the number of mails you can send in one go and you may need to divide the list into smaller groups
